Dr. Sampreeth Singh Wadhwa

HIS Specialist | EHR Workflow Design, Configuration, Testing and Go-Live | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health, a US EHR company, where I took close to 200 client practices from discovery to go-live. I ran current-state and future-state workflow reviews with clinicians, configured practice-specific workflows, tested them, trained 200+ end users and supported go-live and stabilization. Before that I worked in emergency medicine and a COVID ICU, so I know the inpatient and acute workflows a new hospital information system has to support. My work so far has been ambulatory and vendor-side, not a hospital-wide HIS rollout.

CORE SKILLS

- **HIS / EHR implementation:** workflow assessment and redesign, requirements and use cases, configuration, test scripts and testing, go-live readiness and stabilization
- **Change and adoption:** end-user training, training content, stakeholder demos, issue logs and status updates, clinician engagement
- **Clinical and tools:** emergency, ICU and ambulatory workflows; patient safety review; Microsoft Office; AI tools (Claude, ChatGPT, Gemini), React, GitHub

HEALTHCARE SOFTWARE EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Ran EHR implementations for close to 200 client practices: discovery, current-state and future-state workflow documentation, practice-specific configuration, testing and go-live support.
- Trained 200+ end users, including providers, nurse practitioners, nurses and medical assistants, and built training content from the validated workflows.
- Turned recurring client pain points into requirements and feature requests with product and engineering teams; many shipped to clients with positive feedback.
- Triaged defects and patient safety issues through stage-gate release as a member of the Patient Safety Committee, Functional Advisory Committee and Clinical Content Team.
- Clinical lead for a new AI-first EHR from Aug 2025: provider personas, workflow mapping across the visit, and React prototypes before engineering handoff.
- Presented and demonstrated workflows to clients and at the Greenway Engage provider conference (50 attendees).

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): worked under a senior doctor in the ICU, treating COVID-19 and other ICU patients; bedside echo, USG, intubation and central lines; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): factory occupational health centre, seeing 150 to 200 patients a day; wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
