Dr. Sampreeth Singh Wadhwa

SaaS Implementation Consultant | Discovery, Workflow Design and Configuration | Customer Training

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

Four years at Greenway Health, a US EHR software company, owning end-to-end implementations for close to 200 client practices, from discovery workshops through configuration, go-live and adoption. I document how each customer works today, design the workflow they need, configure it, and train the people who use it (200+ trained). I also work on the product side: I write requirements documents from recurring customer problems and have built and launched my own SaaS product with paying pilot clients, including billing and API integrations.

CORE SKILLS

- **Implementation:** customer discovery, requirements gathering, current- and future-state workflow mapping, configuration, go-live support, UAT and SIT, MS Project, SharePoint
- **Customer enablement:** role-based training, documentation and SOP writing, stakeholder communication, customer workshops and presentations
- **Product and integrations:** PRDs, defect triage, API and webhook integrations, subscription billing, prototyping

HEALTHCARE SOFTWARE EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Owned end-to-end implementations for close to 200 client practices, from discovery and workflow documentation through configuration, go-live support and adoption.
- Ran discovery with each customer to document pain points, processes and goals, then designed and configured customer-specific workflows.
- Trained 200+ end users, from providers to nurses and medical assistants, on the new workflows.
- Wrote PRDs and feature requests from recurring customer problems and worked with product teams to get them built; many shipped to clients.
- Took part in UAT and SIT, and triaged defects from detection through stage-gate release as a member of the Patient Safety and Functional Advisory Committees.
- Clinical lead for a new AI-first EHR from Aug 2025: defined user personas, mapped end-to-end workflows and built React prototypes before engineering handoff.
- Presented to clients and at the Greenway Engage provider conference.

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): worked under a senior doctor in the ICU, treating COVID-19 and other ICU patients; bedside echo, USG, intubation and central lines; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): factory occupational health centre, seeing 150 to 200 patients a day; wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
