Dr. Sampreeth Singh Wadhwa

Product Manager | US Ambulatory EHR and Practice Software | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health, a US ambulatory EHR and practice-management software company, working with physician practices and product teams. I owned implementations for close to 200 client practices, turned their pain points into prioritised feature requests, and saw many of those features ship. Since Aug 2025 I have been clinical lead for a new AI-first EHR: provider personas, end-to-end workflow mapping and React prototypes before engineering handoff. As founder of Roovero, I took a SaaS product from idea to launch and paying pilot clients.

CORE SKILLS

- **Product:** requirements definition, prioritisation from client and market feedback, roadmap input, user research, personas, workflow mapping, prototyping, cross-functional alignment
- **Healthcare domain:** US ambulatory practices, EHR clinical workflows, medical terminology, clinical content review, patient safety and release quality
- **Build and AI:** React, Flutter, Firebase, Next.js, Claude Code, Codex, GitHub, n8n, multi-model AI routing, evaluation rubrics

PRODUCT AND AI EXPERIENCE

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content platform for startups and small businesses from problem discovery through launch; now serving paying pilot clients and iterating on their feedback.
- Own strategy, requirements, AI architecture and hands-on build of the Flutter/Firebase app and Next.js site, using Claude Code and Codex to move from idea to working software quickly.
- Built website and PDF ingestion that generates brand profiles, plus 30-day content calendars with a user-approval step in the workflow.
- Integrated and routed multiple AI models (Claude Sonnet, Imagen, Veo, ElevenLabs) and Instagram Graph API publishing, comments and insights.
- Use performance data to iterate on model routing, prompts and content strategy; implemented subscription billing and webhooks and led go-to-market.

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Clinical lead for a new AI-first EHR from Aug 2025: defined provider personas and user goals, mapped end-to-end clinical workflows and scoped where agentic automation could reduce clinician burden.
- Built interactive React prototypes to align product, engineering and clients on requirements before engineering handoff.
- Advised product and design teams on a platform serving 100+ enrolled US physician practices; many features I shaped from client feedback shipped with positive results.
- Owned implementations for close to 200 client practices: discovery, workflow documentation, configuration of practice-specific workflows and widgets, and training for 200+ providers, NPs, nurses and medical assistants.
- Served on the Patient Safety Committee, Functional Advisory Committee and Clinical Content Team, triaging defects and patient safety issues through stage-gate release.
- Presented to clients and at the Greenway Engage provider conference.

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

Founder, Pawlentine Pre-launch

- Defined personas, user journeys and prioritisation for a pet social and matching app; building it hands-on with an analytics agent and event tracking.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): COVID ICU; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
