SUMMARY

MBBS-trained physician who tests and evaluates medical AI. At Outlier since December 2025, I write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare outputs from ChatGPT, Gemini and Claude for accuracy and clinical validity. Four years as Clinical Advisor at Greenway Health taught me how clinical software fails: I triaged defects and patient-safety issues through release and was clinical lead on a new AI-first EHR. I also wrote SOPs as an occupational health physician.

CORE SKILLS

- **AI evaluation:** medical prompt testing, prompt engineering, scoring rubrics, clinical validity and accuracy review, LLMs (ChatGPT, Gemini, Claude)
- **Quality:** QA, defect triage, patient safety, SOP writing, documentation
- **Clinical:** emergency, ICU and occupational health practice, clinical guidelines

AI AND HEALTHCARE SOFTWARE EXPERIENCE

- Reviewed clinical literature on the Clinical Content Team to keep EHR content aligned with guidelines.

Founder and Product Lead, Roovero Dec 2025 – Present
