Dr. Sampreeth Singh Wadhwa

Onboarding and Implementation Consultant | Life Sciences SaaS | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health running client implementations across close to 200 practices. I own the project plan, coordinate clients with product and engineering, manage risks, and train users on launch. I also use AI tools daily and build simple AI workflows with n8n and Claude for my own product, Roovero.

CORE SKILLS

- **Onboarding and delivery:** project planning, governance and status meetings, risk and change tracking, client onboarding, launch coaching
- **Client engagement:** demos, training, stakeholder communication, feedback sessions
- **AI and tools:** Claude, ChatGPT, Gemini, n8n workflows, React, GitHub

HEALTHCARE SOFTWARE AND AI DELIVERY EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Owned end-to-end implementations for close to 200 client practices, from discovery through configuration and go-live, keeping plans and dates on track.
- Coordinated clients, clinicians and internal product teams through each rollout and handed clients over to ongoing support.
- Trained 200+ end users on new workflows and features through demos and hands-on sessions.
- Collected client feedback, grouped recurring issues into PRDs and feature requests, and worked with product teams to get them built; many shipped.
- Clinical lead for a new AI-first EHR from Aug 2025: defined provider personas, mapped workflows and built React prototypes before engineering handoff.
- Presented to clients and at the Greenway Engage provider conference (50 attendees).

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): worked under a senior doctor in the ICU, treating COVID-19 and other ICU patients; bedside echo, USG, intubation and central lines; trained 12+ nurses.

- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): factory occupational health centre, seeing 150 to 200 patients a day; wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
