Dr. Sampreeth Singh Wadhwa

Customer Success and Onboarding Specialist | Health Technology | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health, where I implemented and trained clinicians on healthcare software across close to 200 practices. I run onboarding calls and training sessions, learn clinicians' workflows and help them adopt new tools, and I feed what I hear back to product teams. I also run Roovero, my own SaaS, with paying pilot clients.

CORE SKILLS

- **Customer success:** onboarding, launches, adoption, client check-ins, issue escalation, feedback into product
- **Client engagement:** demos, training, stakeholder communication, workflow advice
- **Tools and clinical:** AI tools (Claude, ChatGPT, Gemini), React, GitHub, n8n; emergency, ICU and ambulatory workflows

HEALTHCARE SOFTWARE AND AI DELIVERY EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Owned end-to-end implementations for close to 200 client practices, from discovery and workflow documentation through go-live and follow-up.
- Ran onboarding calls, demos and hands-on training for providers, nurse practitioners, nurses and medical assistants (200+ trained), and followed up as practices settled in.
- Worked with product teams on client issues and growth opportunities; grouped recurring pain points into PRDs and feature requests, and many shipped.
- Triaged defects and patient safety issues from detection through stage-gate release as a member of the Patient Safety and Functional Advisory Committees.
- Clinical lead for a new AI-first EHR from Aug 2025: defined personas and workflows and built React prototypes before engineering handoff.
- Presented to clients and at the Greenway Engage provider conference (50 attendees).

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.

- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): worked under a senior doctor in the ICU, treating COVID-19 and other ICU patients; bedside echo, USG, intubation and central lines; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): factory occupational health centre, seeing 150 to 200 patients a day; wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
