Dr. Sampreeth Singh Wadhwa

EHR Implementation Consultant | Workflow Consultation and Configuration | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health, a US EHR company, owning end-to-end implementations for close to 200 client practices as part of a formal implementation team. I run discovery, document current workflows and pain points, then design and configure practice-specific workflows in the EHR. I have trained 200+ end users, from providers to medical assistants, and presented to clients and at Greenway's provider conference. Hospital practice in emergency medicine and ICU means I know how documentation, registration and scheduling actually run on the floor.

CORE SKILLS

- **Implementation:** business discovery, requirements gathering, current- and future-state workflow mapping, system configuration, go-live and setup support, implementation project team
- **Training and adoption:** role-based end-user training, clinical staff training, SOP writing, user adoption, stakeholder communication
- **Quality and clinical:** defect triage, patient safety review, stage-gate release, clinical documentation workflows, emergency, ICU and inpatient care

HEALTHCARE SOFTWARE EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Owned end-to-end EHR implementations for close to 200 client practices, from discovery and workflow documentation through configuration, setup and adoption.
- Ran discovery with each practice to document pain points, business processes and goals, then designed and configured practice-specific workflows and widgets.
- Trained 200+ end users, including providers, nurse practitioners, nurses and medical assistants, on the new workflows.
- Wrote PRDs and feature requests from recurring client pain points and worked with product teams to get them built; many shipped to clients.
- Triaged defects and patient safety issues from detection through stage-gate release as a member of the Patient Safety and Functional Advisory Committees.
- Clinical lead for a new AI-first EHR from Aug 2025: defined provider personas, mapped end-to-end clinical workflows and built React prototypes before engineering handoff.
- Presented to clients and at the Greenway Engage provider conference.

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): COVID ICU; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
