Dr. Sampreeth Singh Wadhwa

HIS and EHR Training Lead | Clinical Workflow Training Design | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sunny.sampreet@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health, a US EHR company, where I led training and adoption inside implementations for close to 200 client practices. I assessed what each practice's users needed, built role-based training around their documented clinical workflows, and trained 200+ end users, from providers and nurse practitioners to nurses and medical assistants. I have taught adult learners in hospital settings too: 12+ nurses in a COVID ICU and 500+ staff as an occupational health physician, using SOPs I wrote. I can explain a system to a clinician in their own terms, and to someone with little computer experience in plain language.

CORE SKILLS

- **Training and enablement:** EHR end-user training, instructor-led and virtual sessions, training material development, role-based curricula, SOP writing, adult learners
- **Implementation:** clinical workflow documentation, current- and future-state mapping, configuration, go-live support, stakeholder communication
- **Clinical and tools:** emergency, ICU and ambulatory workflows; patient safety review; AI tools (Claude, ChatGPT, Gemini), React, GitHub, n8n

HEALTHCARE SOFTWARE EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Led training and adoption within end-to-end EHR implementations for close to 200 client practices, from discovery and workflow documentation through configuration, setup and go-live.
- Trained 200+ end users, including providers, nurse practitioners, nurses and medical assistants, on new practice-specific workflows.
- Ran discovery with each practice to document pain points and clinical workflows, then designed and configured workflows and widgets to fit them.
- Wrote PRDs and feature requests from recurring client pain points and worked with product teams to get them built; many shipped to clients.
- Triaged defects and patient safety issues from detection through stage-gate release as a member of the Patient Safety and Functional Advisory Committees.
- Clinical lead for a new AI-first EHR from Aug 2025: defined provider personas, mapped end-to-end clinical workflows and built React prototypes before engineering handoff.
- Presented to clients and at the Greenway Engage provider conference (50 attendees).

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): worked under a senior doctor in the ICU, treating COVID-19 and other ICU patients; bedside echo, USG, intubation and central lines; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): factory occupational health centre, seeing 150 to 200 patients a day; wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
