Dr. Sampreeth Singh Wadhwa

EPR Applications Specialist | Clinical Application Build, Workflow Redesign and Testing | MBBS-Trained Physician

Fort Erie, Ontario, Canada | sampreethwadhwa@gmail.com | linkedin.com/in/sampreethsingh | Portfolio

SUMMARY

MBBS-trained physician with four years at Greenway Health, a US EHR company, where I took close to 200 client practices through discovery, workflow documentation, configuration, testing and go-live. I sat on the Patient Safety and Functional Advisory Committees, triaging defects and safety issues through release, and I turned clinician pain points into change requests that product teams shipped. Before that I worked in a Level 1 trauma ED and a COVID ICU, so ordering, results and documentation workflows are familiar to me from the bedside. My build work so far has been ambulatory and vendor-side, not a hospital EPR.

CORE SKILLS

- **EPR build and support:** clinical workflow documentation and redesign, configuration, test scripts and testing, change and enhancement requests, impact assessment, defect triage, go-live and stabilization support
- **Safety and change:** patient safety review, stage-gate release, end-user training, clinician engagement, issue logs and status updates
- **Clinical and tools:** emergency, ICU and ambulatory workflows (ordering, results, documentation); Microsoft Office; AI tools (Claude, ChatGPT, Gemini), React, GitHub

HEALTHCARE SOFTWARE EXPERIENCE

Clinical Advisor, Greenway Health Aug 2022 – Oct 2026 | Remote

- Ran EHR implementations for close to 200 client practices: discovery, documenting current and future-state clinical workflows, configuring practice-specific workflows and widgets, testing and go-live support.
- Assessed requests for workflow and content changes, weighed the impact on clinicians and other modules, and worked with product and engineering teams on the fix; many changes I shaped shipped to clients.
- Triaged defects and patient safety issues from detection through stage-gate release as a member of the Patient Safety Committee, Functional Advisory Committee and Clinical Content Team.
- Trained 200+ end users, including providers, nurse practitioners, nurses and medical assistants, and supported them through stabilization.
- Clinical lead for a new AI-first EHR from Aug 2025: provider personas, workflow mapping across the visit, and React prototypes before engineering handoff.
- Reviewed clinical literature for EHR content and presented workflows to clients and at the Greenway Engage provider conference (50 attendees).

AI Evaluation (Freelance), Outlier Dec 2025 – Present

- Write clinical prompts and expert reference answers, build scoring rubrics, and grade and compare ChatGPT, Gemini and Claude responses for clinical accuracy and task requirements.
- Design questions that challenge frontier models on clinical workflows and simulated scenarios, documenting where responses help and where they fail.

Founder and Product Lead, Roovero Dec 2025 – Present

- Took an AI content SaaS for small businesses from discovery to launch; now serving paying pilot clients and iterating on their feedback.
- Own requirements, AI architecture and the hands-on build (Flutter, Firebase, Next.js) using Claude Code and Codex, including billing and webhook integrations.
- Work agentically: write the PRD, functional design and technical design documents first, then have AI agents build from them. The support system runs on a RAG pipeline.

CLINICAL EXPERIENCE

- **Senior Resident, Emergency Medicine, Aster CMI**, Bengaluru (Apr 2021 – Jul 2022): quaternary care, Level 1 trauma centre.
- **ICU Registrar, HBS Hospital**, Bengaluru (May 2020 – Jan 2021): worked under a senior doctor in the ICU, treating COVID-19 and other ICU patients; bedside echo, USG, intubation and central lines; trained 12+ nurses.
- **Occupational Health Physician, Ranger OH Clinic** (Jan – Apr 2021): factory occupational health centre, seeing 150 to 200 patients a day; wrote SOPs; trained 500+ people in emergency and safety protocols.
- **Teleconsultation Doctor, TATA 1MG** and freelance physician, India (Nov 2020 – present): virtual and in-person consultations, chronic disease management.

EDUCATION

MBBS, Kempegowda Institute of Medical Sciences (KIMS) 2020 | Bengaluru, India
